How to find your "in progress" and "needs information" applications

The screenshot shows the Prolydian 'My applications' dashboard. The interface includes a purple sidebar on the left with navigation options: Dashboard, Applications, My applications (highlighted with a red box and labeled '1'), Applicants, Credentials, and People. The main content area has a purple header with 'Dashboard > My applications', a search bar with a funnel icon (highlighted with a red box and labeled '2'), and a search input field. Below the search bar, there are two dropdown menus: 'Application statuses' (with options 'In progress, Needs information, Under review' and highlighted with a red box and labeled '3') and 'Application forms' (with 'Nothing selected'). A 'Search' button (highlighted with a red box and labeled '4') is located below the dropdowns. The dashboard also features a '5 Records found' indicator, a table view toggle, and a table with columns: TITLE, STARTED ON, STATUS, and SUBMITTED ON. The table content is currently empty.

1. Click on "My Applications" on the left bar.
2. Click the funnel icon to sort.
3. Select the Application Status(es) to check.
4. Click Search and scroll down to view.
